#### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anneliese S. Mayer on September 27, 2006.

2. The application has been amended as follows:
  - 2.1. In claim 11, line 11, --thereafter,-- has been added after "and".
  - 2.2. In claim 22, line 1, the dependency has been replaced from "claim 11" to --claim 25--.
  - 2.3. Claims 1-10, 12-17 and 19 have been cancelled.
  - 2.4. In the specification on page 1, line 6, --now allowed-- has been added after "May 9, 2003,".

#### **STATEMENT OF REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance:

The claims in their present amended forms have overcome the prior art of record because none of them teaches, discloses or suggests a method for cleaning a textile in the manner as those specifically recited. The present amended claims now require a method of cleaning textile wherein the heterogeneous composition comprises at least one liquid and at least one powder and

Art Unit: 1751

Hsu, one close prior art of record, fails to teach this limitation because Hsu is drawn to a layered liquid laundry detergent composition. Gladfelter, another close prior art of record, is drawn to a solid chemical concentrate. Antheunis, another close prior art of record, is likewise overcome because this reference is drawn to a nonaqueous built detergent composition which is made stable against phase separation (see abstract, page 2, lines 1-5), and therefore fails to teach a heterogeneous cleaning composition comprising two or more substances that are not evenly dispersed, and this reference also fails to teach, disclose or suggest the steps of diluting the heterogeneous composition to form an intermediate homogeneous cleaning composition and thereafter, adding the intermediate composition to a diluent in the presence of the textile to be cleaned. Accordingly, the subject matter, as a whole, would not have been obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
